Jumpo and SigNav sign China Distribution Agreement

Beijing, China, 7th August 2008

Beijing-based timing solutions distribution company Jumpo announced today that they have entered into an agreement to distribute SigNav's state-of-the-art high performance GPS-based timing solutions in China.

China is the home to the world's largest base of mobile phone subscribers, nearing 500 million, coupled with the Carriers' ambition to provide every part of this vast country with wireless coverage, it presents SigNav with an enormous opportunity to participate in a significant way in China's fast-growing wireless telecommunication market. To support this growth, many of the world's leading telecommunication equipment makers have established factories and development centers in China.

Jumpo has more than 15 years experience in providing various timing solutions to the Telcos and the telecommunication equipment makers. Jumpo's President Mr Da Geng Lei says: "SigNav's industry leading GPS based timing technology has placed itself in a leadership position to support the needs of this industry that demands high precision and high performance timing solutions. With the imminent launch of the TD-SCDMA and CDMA 2000 services, the demand for highly synchronized base stations will undoubtedly increase many fold. Our country's leading telecommunication equipment makers have also made inroads into the emerging Femto-cell market. SigNav's products are exposed to a huge market potential. Jumpo is ideally positioned to jointly work with SigNav and our customers to develop leading performance mobile phone base stations and Femto-cell products."

"SigNav is delighted to partner with Jumpo in the Chinese marketplace", said Mr John Riedl, SigNav's Chairman and CEO, "we look forward to a long and prosperous relationship. China is an important market for any supplier. SigNav will certainly succeed with a distributor of Jumpo's caliber."

About Jumpo

Jumpo, a distribution and value added service providing company, is made up of professionals that have served and been fully focused on the China telecommunication equipment markets for the past 15 years, especially in the timing related products. Jumpo not only distributes components, but also provides solution integration services to help customers with time-to-market quality products.
